One of the most common questions asked by Aussie players is "how do I make pokies payout?" To be honest, there's no way to ensure this. However, you can use some old tricks that have been tried and tested by our expert players. These tips can be used for any online pokies game, and will help you to keep on track while spinning the reels. So what are the reasons for playing high roller slot machines? First of all, these slots have the higher payout. That's obvious — when you make a higher bet, you win more money, the luck permits. The high limit slots odds are usually higher than those of regular slot machines as the casino owners are trying to make the best use of small bet slots that are played more frequently and that's why increase the house edge for them. As slots with high limit are played not so often but are very lucrative for the casino, their RTP is higher and the high limit slot wins can happen relatively more often. Another reason for playing high limit slots is that they can bring you the most of the excitement and real gambling spirit. Playing a penny-slot is easy and after a certain period of time just stops being exciting. When you are playing on the 500 dollar slot machine, each spin strikes a chord in your soul, the time stops and there are only two of you — the gambler and the high limit slot. The problem is, one of you will lose the game but who cares when the reels are spinning? Players have a top choice of

games to choose from in both Video Slots and Classic casino games. Online slots can be found from the likes of Jurassic World, Rainbow Riches, Butterfly Staxx, Well of Wonders, Copy Cats and of course Starburst! play aristocrat pokies online real money
