This Universal studio-licensed slot is based on the famous movie about Dr. Frankenstein and his spooky creature. The game is famous for its detailed high-end graphics and advanced features such as Lightning and Fire Wilds. NetEnt are the kings of horror slots and their next game Zombies is even more creepy than the Frankenstein. We don't recommend playing this game when you are home alone as you can get very scared when the special features such as Random Wilds appear on the screen. The perfectly-chosen sounds create the atmosphere of the real horror movie and you won't feel safe until you get your first wins. But not all the spooky slots are so advanced and sophisticated. If you are a fan of classic 3-reel slots, you can try the Spooks and Ladders or the Trick or Treat games by Microgaming that are also quite nice. fairfield rsl victoria

The origins of Blackjack's precursor 21 is largely unknown. The first reference to 21 was found in a book by Miguel de Cervantes, a writer and gambler most famous for his work Don Quixote. When 21 was introduced in the United States, players were offered bonus payouts to keep them interested in the game. One such bonus was a ten-to-one payout if the player's hand consisted of the ace of spades and a black jack. This hand was called a "blackjack" and the name stuck to the game. There's this witty machine, the EggOmatic, producing eggs at random and sending them up on a conveyor belt above the reels. You can get a prize when a Wild pops up beneath the egg. You'll also see green eggs on the conveyor with a number on them. If the Wild chicken catches one of these, you'll win the exact number of Free Spins written on the egg. The round of Free Spins can go on for a long while, as the egg spewing machine produces an egg each time you spin, which is far more often than during the regular mode. If the Wild chicken catches the unique egg marked with W, you'll see more Wilds on adjacent reels right away. This, my friend, results in shamefully huge wins.
