Card counting is often assumed to be the difficult task of remembering the exact value of every single card that is dealt. This would require powers of memory and concentration far beyond those of the average human being, especially when playing with multiple decks. Instead, a card counter assigns a value to certain groups of cards, which vary according to the system of counting blackjack that is used. The popular Hi-Lo system counts 10, Jack, Queen, King and Ace as -1, cards 2 through 6 as +1 and 7, 8 and 9 as zero. (NOTE: These values change as you move up through several levels.) So the card counter's task is to keep a running total of the values according to this system. Sir Jackpot Casino er eid av den seriøse aktøren Berthard Group Limited, som har base i Malta.
